

Mooring information: Namena Marine Reserve - Fiji

Near-shore Moorings:

These have been installed to make village visits to five of the beautiful and unspoilt costal villages of Kubulau possible. Each village has three newly USP certified tour guides ready to greet your guests with the true Fijian hospitality we all know and love. They are looking forward to entertaining your guests, and can provide anything from a beach to off gas during a surface interval, to a general village visit. We are also working with them, WCS, USP and the Ministry of Tourism to develop environmentally aware adventure packages which will include hiking/bird-watching in the forest reserve, old village settlement sites, river bilibili tours, and fresh water lake swimming. If you are interested in arranging something for your guests, please call Heidi (9208413), Didi (7404162) or Moala (8358564) for more information.

| NAME | TYPE | GPS (S) | GPS (E) |
|-------------------|--|------------|-------------|
| Navatu Bay | Triple Helix (suitable for liveaboards) | 16.55.2339 | 179.01.9194 |
| Kiobo Village | Single Helix (suitable for skiffs and day boats from Savusavu based operators) | 16.917631 | 179.028131 |
| Natokalau Village | Single Helix (suitable for skiffs and day boats from Savusavu based operators) | 17.07.0142 | 179.06.1565 |

Namena Marine Reserve Moorings:

These moorings have been installed to prevent anchor damage to the beautiful reefs of the Kubulau Qoliqoli. Please make use of them and support Tui Kubulau's request for us all to help protect the reserve by treating it as an 'Anchor Free Zone'. The moorings will be maintained regularly, however if you notice any damage, or wear and tear, please call any of the above three telephone numbers.

| SERVING DIVE SITE | DEPTH | NOTES | GPS (S) | GPS (E) |
|---|-------|---|------------|------------|
| North Save For Grand Central and Kansas etc | 28m | Positioned in the lee of the reef during normal South easterly winds. | 17.04.303 | 179.06.600 |
| General | 18m | This mooring is behind the island in South easterly and relatively calm. | 17.04.3817 | 179.06.512 |
| Chimneys / Two Thumbs Up & Neptunes / Mushrooms & Blackforrest / Tetons | 24m | Sheltered inside the reef. | 17.06.151 | 179.04.072 |
| Keenans / Robins Rainbow | 16m | Outside the reef, however relatively protected in South Easterly. | 17.03.95 | 179.01.75 |
| Fantasea | 22m | Inside the reef however the area is away from the strong current but can be choppy in South easterly. | 17.03.059 | 179.00.032 |
